WATERFRONT FIRES START NEW ALIEN ROUND-UP IN CITY

Every German in "Barred Zone" Where Law Is Broken May Lose Permit.

Destruction of property and food.

stuffs amounting to \$3,000,000 within the last four days, by what are believed to have been incendiary fires at waterfront points utilized by the Government, has moved Federal officials to prompt action to prevent other fires.

This is believed to have been the subject of a conference to-day between United States Attorney Francis G. Caffey, Assistant United States Attorney John C. Knox and Joseph A. Baker, Acting Chief of the Department of Justice in the absence of Superintendent Coffey. The conference was called on receipt of a telegram from Attorney General Gregory relating to the arrest and internment of William Lewis Dunbar pending investigation by the naval authorities. Mr. Knox said no formal charge had been made against the former naval ensign.

Following the conference, Federal agents were sent to every "barred zone" in the greater city, with special orders to investigate alleged violations of the President's proclamation along the waterfronts.

A high Federal official gave a new interpretation of the barred zone law today. Under it Germans who have been observing the law will suffer the same consequences as those who break the statute. Under the President's proclamation the license of every enemy alien may be revoked in any "barred zone" where violation of the law occurs. Hundreds have already been revoked here.

Federal authorities intimated that more than two hundred aliens have been interned on Ellis Island for violations of the "barred zone" laws. This number will be materially increased by the wholesale revocation of permits in all barred zones where violations may occur.

It was stated that most of the Government surveillance is being concentrated at points along the waterfront devoted to the building of submarine chasers and the shipment of foodstuffs and munitions to Government troops and Allies abroad.

The investigation will be particularly directed to places where damage by fire has run into the millions. Every effort will be made to fix the responsibility for material losses and arrests may be made on the added charges of impeding the progress and welfare of the nation in time of war.

Girls! Use Lemon Juice!

Make a quarter pint of beauty cream for little cost.
Clears, softens and whitens the skin.
Brings out the hidden roses!

By all means, girls, prepare a lemon lotion to keep your skin flexible and young looking. You will soon realize that true loveliness does not mean the powdery look or waxen colorlessness of some hot-house flower, but is typified by the velvety softness of your skin, your peach-like complexion and rosy-white hands.

At the cost of a small jar of ordinary cold cream one can prepare a full quarter pint of the most wonderful lemon skin softener and complexion beautifier, by squeezing the juice of two fresh lemons into a bottle containing three ounces of orchard

white. Care should be taken to strain the juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan, and is the ideal skin softener and beautifier. Just try it! Get three ounces of orchard white at any pharmacy or toilet counter and two lemons from the grocer and make up a quarter pint of this sweetly fragrant lotion, and massage it daily into the face, neck, arms, and hands, particularly rough red hands.—Advt.

RED CROSS TO CALL NURSES WHO HAVE WED PATIENTS

Women Will Be Asked to Abandon Romance and Help the United States to Win the War.

WASHINGTON, Oct. 18.—America's nurses who have married their patients will be asked to abandon romance and return to hospitals to help win the war.

"It will be but a short time," said a Red Cross official today, "until the demand for nurses will be enormous. We will call on those whose location we know who have fallen in love with and married their patients to come back and serve in the country's time of need."

Those who succeed will replace the thousands of regular nurses taken to the front from hospitals and sanitariums at home.

Official figures to-day showed that 2,000 graduate nurses already are in active war service at home or abroad. Fourteen thousand others have volunteered subject to Government call.

MILKMEN FAIL TO STRIKE.

One Company Arbitrating and Another Will Get Demands.

The strike of milk wagon drivers, which was expected to affect 2,000 men and the up deliveries in many sections of the city to-day, has not materialized yet. Edwin Lowy, business agent of Local No. 544 of the Milk Drivers' Union, announced that the Empire State Dairy Company agreed to recognize the union and arbitrate the question of wages, after the demands were presented to the company by the drivers last night. The demands include \$25 a week pay, 1 percent commission on sales and one day off a month.

Mr. Lowy said a meeting would be called to-day to consider submitting similar demands to the Borden Company. C. D. Fox of the Borden firm said:

"Our drivers are working. They get \$20 to \$25 a week now."

Big Blyn Stores

Blyn Stores form one of the greatest assemblages of shoe outlets anywhere—in size—in volume of sales—in the service they render to many thousands of families they can count as patrons.

Each Blyn Store is a fully stocked, complete individual unit, yet all are working under one compact general system, with one management, one policy and one aim.

We have found that this arrangement has developed the same of efficiency—effected the greatest economy and reduced the cost of retailing to the lowest possible percentage.

Eleven Big Stores and many times that number of windows are showing the new Blyn Shoes that prove the exactness of our claims.
